

Kindly follow the given below instruction for the poster and oral presentation.

POSTER PRESENTATION

- I. Please follow the given template for poster making.
- II. Carefully read the instruction given in Poster Template and make it accordingly.
- III. Ensure the title is clear, concise, and reflects the key focus of your research. Use large, bold fonts that are readable from a distance.
- IV. Include figures, tables, and graphs where appropriate. Visuals should be high quality and easy to interpret. Avoid clutter and use captions for each figure or table.
- V. Use a consistent and professional colour scheme that enhances readability. Avoid overly bright or clashing colours.
- VI. Include institutional logos or conference logos as required by the event guidelines.

ORAL PRESENTATION

- I. Know the level of knowledge your audience will have on the topic. Tailor your presentation to be understandable to a broad audience, while offering insights to experts.
- II. Verify the allotted presentation time (typically 7 minutes). Plan for 2 minutes for questions at the end. Time your presentation to fit within these constraints, practicing multiple times.
- III. The first slide should prominently display the ICTU logo provided here with.
