Objective

Seeking to be an excellent Petroleum Engineer in the field of reservoir engineering, where I have a very good academic background related to all topics, specifications and considerations which related to this field where I 'm interested and where I like to achieve my ambitions.

Work Experience

ONGC Mehsana Asset

Summer Internship May 2019 - Jul 2019
Role : Surface Operations for Oil/Gas Wells.

Skills

MS-Office, MS-excel
, Word and PowerPoint
, AutoCad

Field of Interest

Organic Chemistry, Reservoir engineering,
Drilling engineering

Strength

Learning agility: Quick learner
, Coaching people: Teaching
, Responsible
, Honesty and Integrity

Hobbies

Social Anthropology, Listening Music,
Excercise

Academic Details

Rajiv Gandhi Institute of Petroleum Technology

BTech, 7.06, Pursuing

The Ideal New Star English School

Class 12, 86%, 2015

Glenhill School

Class 10, 10, 2013

Project Details

Produced Water Management

Experimental research of high strength thermally stable organic composite polymer gel.

Period : 1 Year Team Size: 1
Role : Project Manager

Curricular Activities

Co-Curricular

Logistics head in Energia'19(College Sports fest)
, Volunteered in Arpan social club
