

Thirteenth Day (July 13, 2022) of Swachhata Pakhwada Celebrations at Rajiv Gandhi Institute of Petroleum Technology, Jais

On the penultimate day of the valedictory function, the Rajiv Gandhi Institute of Petroleum Technology organized a plogging (jogging + picking up litter) session on the national highway in front of the institute. The motive was to make a little bit of the highway free of plastic waste. The contingent consisting of a few faculty and a dozen of housekeeping staff moved from the Institute's Gate No 01 at 7.00 am and passed along a 01 km stretch of national highway before reaching the Institute's Gate No 02. Plastic and other waste materials were collected from the roadside, with banners promoting environmental awareness, which was later dumped at a designated place.
